

## **Feed The Knight To The Dragon**

Classroom or party play activity. This will be a Pin the Tail on the Donkey type activity. You can use images from the book as a guide to draw a dragon on a large piece of poster board or use the dragon in the materials I prepared below. Either draw small knights for students to color or have each student draw and color their own knight, or use the knights in the materials I prepared. If you plan to play the game multiple times, laminate the dragon and the knights. Students will take turns being blindfolded as they tape their knight to the dragon. The student whose knight is closest to the dragon's mouth wins the game.
